CALL MANAGER

The Phone Status panel in the center of the CommPortal Home page displays your Call Manager where you can set your availability status and manage how incoming calls are routed to you.

The top section on the left enables you to change your setting from 'Available' to 'Do Not Disturb,' allowing you to route calls directly to voicemail if you're busy. There is also a forwarding option that enables simultaneous ring with your mobile device.

The panel on the right allows you to set up how calls from various different types of callers are handled. You can use options on this screen to add numbers to VIP and Unwanted callers lists

DOWNLOADING APPS

You can use the Downloads link, located at the foot of the CommPortal Home page, to access a range of apps that you can download onto your computer or your mobile/tablet so that you can always have access to the key CommPortal features on your desktop or mobile device.

CHANGING SETTINGS

The panel at the bottom of the CommPortal Home page allows you to make various changes to your settings. For example:

- To configure your phone according to your preferences, use the Devices link. On the screen that appears, use the 'set keys' link to configure your phone according to your preferences.
- To change your password and/or PIN, or your security email address, click on the links under Security at the bottom of the Home page.

The Calls Settings page allows you to control various call settings, for example withholding your caller ID and configuring Call Forwarding, Call Blocking or Call Jump settings.

The Messaging Settings page enables you to control how your messages are handled, for example you manage mailbox settings, customize how you are notified of a voicemail, configure greetings, and more. Using Voicemail Greetings you can personalize your voicemail greeting by recording an announcement (a microphone is required).

CommPortal **Quick Start Guide**

WELCOME

This guide is intended to get you up and running with the basic features associated with the product. For more in-depth information, please see the tutorial videos on our website at www.ArmstrongOneWire.com/UV.

As always, you can also contact our local customer care team at 1-866-483-9127 and we will be happy to assist you.

CommPortal is the web portal used to configure the features on your new phone system. With CommPortal, you can:

- View missed calls •
- Listen to voicemail messages
- Manage your contacts
- Set up rules to route your calls
- Perform many other functions

To get started, go to the login page at: www.ArmstrongOneWire.com/UV (Consult your administrator regarding your default password. Once you log in, you will be prompted to create a new password.)

* This Guide is representative and may vary from your individual CommPortal screen.

GETTING ORIENTED

Once you are logged in, you will see the CommPortal Home page:

HOME PAGE

The CommPortal Home page is the main screen for the portal where you can view your Call Manager settings and access a range of other services.

- 1. Messages and Calls (13) Click this link to view and retrieve any voicemails
- 2. Contacts Import your contacts from Outlook or create new ones, then click on a name to dial
- Phone Status Control your Call Manager settings 3.
- Make Call Make a call direct from CommPortal 4.
- Start Meeting Start a MaX Meeting 5.
- Manage Webinars Create or manage your MaX Webinars 6.
- 7. Security - Use these links to change your password or security email address
- Downloads Download apps, for MaX Communicator 8.
- Send Feedback Report bugs or make suggestions for improvements to the CommPortal interface
- 10. Your Services Use these links to access a range of services available with your CommPortal account, for example to change your call, message and notification settings, or set up a Reminder call.

The Messages and Calls tab displays all recent call activity. Here you can retrieve voicemails and view calls based on whether they were missed, received, dialed, or deleted.

Click on one of the sub-tabs to get more detail. From the Missed, Dialed, and Received tabs you can click on the name and either call them, add them to your contacts, or jump to the caller's existing contact information.

Use the Action drop-down alongside each message to mark as Heard (or) New, Forward as Email, or Forward as Voicemail, or click the trash icon to delete it.

message.

Click the 'New Voicemail' button at the top of the page to record and leave a voicemail as a memo (your computer must have a microphone to use this function).

CONTACTS

The Contacts page enables you to manage all of your contact information. Within it, you can create new contacts (using recent call information like a missed call, or create a new one from scratch), create groups of contacts, or import/export your contacts.

MAKING CALLS FROM COMMPORTAL

Dialer.

On the Dialer you can enter the number you want to call, either by typing it in or selecting from a dropdown list of your Contacts, and also choose which of your telephone numbers will be used to make the call.

Click the 'play' arrow button to listen to a voicemail. Note that you can listen to your voicemails in any order. A window (as shown over the Messages and Calls screen) will open to display the Voicemail player where you can listen to and manage the

The fastest way to add your contacts is to import them from your email program. If you use Microsoft Outlook, follow these instructions:

- A new window should appear
- Select Export to File click Next
- Select Comma Separated Values from the list and click Next
- Select Contacts from the folder tree and click Next
- Go back to the CommPortal Contacts page
- Click the Browse button to find the 'Outlook Contacts' file
- Your contacts are now in CommPortal!

You can make a call direct from CommPortal by clicking Make Call to launch the
