

ARMSTRONG[®]

[FOR IMMEDIATE RELEASE]

Armstrong continues its mission to provide customers with the best fiber broadband network infrastructure available. This substantial investment will bridge the digital divide and provide communities with technology of the highest quality and reliability for many years to come.

Southern Butler County, PA, 1.10.25—Armstrong, a leading broadband provider specializing in fiber broadband internet, is thrilled to announce the completion of its next-generation Advanced Fiber Network construction project in Cranberry, Gibsonia, Mars, Seven Fields, and Valencia communities. Zelienople Borough is slated for this technology in early 2025. This extensive project saw Armstrong install and activate 970 miles of high-speed fiber infrastructure that will transform internet connectivity for over 44,000 homes and businesses in the area and deliver unprecedented speed and reliability to the community.

This advanced fiber network is set to provide residents and business owners with the fastest broadband internet speeds, supporting modern connectivity needs such as seamless video streaming, remote work, Internet-of-Things (IoT) connectivity through cloud-based applications, and so much more.

“The introduction of our Advanced Fiber Network technology marks a transformative upgrade for delivering a heightened standard of broadband internet connectivity,” Armstrong’s Vice President of Technology and Engineering Eric Svenson stated. “This technology is engineered to provide unparalleled multi-gigabit speed, reliability, ultra-low latency, and robust capacity to meet today’s connectivity demands and prepare our communities for a digital future.”

The project represents one of Armstrong's most significant expansions, with fiber-optic broadband internet reaching thousands of homes, schools, and businesses across Southern Butler County, PA. Armstrong's next-generation Advanced Fiber Network will empower households and businesses to thrive in today's digital world.

About Armstrong

Armstrong is the 11th largest Multiple System Operator (MSO) in the United States. For more than 70 years, Armstrong has provided advanced telecommunications services to residential and business customers in PA, OH, NY, MD, WV, and KY. As a leader in broadband technology, Armstrong has invested more than 150 million dollars to bring its customers an advanced Fiber-To-The-Home (FTTH) network.

Armstrong is nationally recognized for excellence in customer service and internet satisfaction. In 2024, CTAM/HarrisX recognized Armstrong as the #1 internet customer satisfaction provider in the United States. A year prior, PCMag.com recognized Armstrong as the #1 internet service provided by a “cable company.” And in 2022, for the second time, Cablefax recognized Armstrong as the Independent Operator of the Year.
